

|

Plantation	Spacing	Disadvantages
Intensive, 650 plants/hectare	Plantation 4 m x 4 m	Artificial pruning required or the timber will have knots
Intermediate, 1,100-1,250 plants/hectare	Plantation 2 m x 4 m	
Traditional, 2,500 plants/hectare	Plantation 2 m x 2 m	Early thinning required so more difficult to market.

Sensitive to Armillaria

Hylobius

Fomes
